

IN THE CLAIMS

Kindly cancel claims 6-16 and 18-19 without prejudice.

1. (original) A remote control for controlling a consumer electronic device comprising:

a transmitter for transmitting an electromagnetic signal to the consumer electronic device to cause the consumer electronic device to download information to the consumer electronic device;

a receiver for receiving an electromagnetic signal from the consumer electronic device which indicates the status of a download process; and

a progress/status indicator for indicating the status of the download process.

2. (original) The remote control according to claim 1, wherein the progress/status indicator is a bar which indicates the percent completion of the download process.

3. (original) The remote control according to claim 1 or 2, wherein the progress/status indicator includes alphanumeric characters for indicating the percent completion of the download process.

4. (original) The remote control according to Claim 1 or 2, further including an alarm for indicating completion of the download process.

5. (original) The remote control according to claim 1 or 2, further including a personalization feature which personalizes the progress/status indicator.

Claim 6-16 (cancelled)

17. (Original) A data storage access device, comprising:  
a remote control;  
a transmitter for communicating with the remote control;  
a progress/status indicator located on the remote control  
which indicates the status of a download process.

Claims 18-19 (Cancelled).
